Pella® Lifestyle Series

Why You Can Trust Pella.

At Pella, we don't just create windows and doors. We innovate with purpose, design with passion, build with integrity and deliver with pride.

Rated #1

by homeowners for innovation²

We are continually striving to improve what we do and how we do it. That drive has earned us 150 patents and counting for amazing innovations. In 1925 we opened our doors with the patented Rolscreen® retractable screen, a time-tested innovation that is still one of our most desired features today.

Rated #1

by homeowners for highest quality²

We make products specifically for you and your comfort with meticulous care and attention. Our wood craftsmen have been honing their skills, on average, for over 14 years — that's longer than it takes most to earn their PhD. And it doesn't stop there. Our product designs are tested beyond industry standards, so you can trust them to perform. Door designs are tested to 100,000 open and close cycles, and double-hung and casement window designs are tested at least 6,000 times.

The Best Limited Lifetime Warranty for wood windows and patio doors³

You can feel confident in your investment. We pride ourselves on providing exceptional quality, exceeding expectations and going beyond requirements. That's why we stand behind all of our products with a limited lifetime warranty⁴

Beautiful Wood Designs

Pella Lifestyle Series picture windows with a white interior finish and Simulated-Divided-Light grilles complete this laundry room and office combination.

Why Choose Wood?

Get the beauty and warmth of natural wood, our most customizable designs and exceptional energy efficiency. All Pella wood products are made with high-quality wood, metal and manufacturing processes, regardless of the product line.

Exclusive Wood Protection

Pella's exclusive EnduraGuard® wood protection is applied after the pieces have been cut and milled, but prior to final assembly, providing advanced protection against the elements.

Designed for Long-Lasting Durability

Intentional jamb-on-sill design helps seal the end grain of the wood and elevates it off the rough opening, reducing the potential to absorb moisture. For added strength and durability, our three-way corner joints are made up of mortise-and-tenon, metal fasteners and commercial adhesive.

Quality Exterior and Interior Finishes

EnduraClad® finish is a tough, protective aluminum finish for the exterior of your home. The overlapping, watershed cladding resists chalking and fading. Interiors can be factory prefinished to save time. The interior finish is applied prior to final assembly and kiln-cured for a quality aesthetic.
